IT WAS THE DEPRESSING FACTOR Colder Weather Has Checked Trade Somewhat-Prices Steady.

The low temperature of the last forty-eight hours has temporarily curtailed business, at least with the produce men and commission houses, as it has been too cold to ship goods which are injured by freezing, although orders are good to be shipped when weather conditions daily by one of the leading produce houses of the city. The seed merchants are enjoying a big trade for February. Wholesale grocers report business good and prices very firm, but unchanged in the leading lines of goods. The leather market is active and prices firm. Iron and hardware merchants report their sales as satisfactory. Druggists and dealers in paints demand and \$4.84% for sixty days; posted and oils are doing a good business. The flour and hide markets are dull. By reference to Tom Watson's biography of Thomas Jefferson it will be found that the Declaration of Independence was finally adopted on July 4 because the members of Congress were so greatly bothered by files which swarmed into the hall from a livery stable near by that further debate became almost impossible. On such causes sometimes hangs the selection of dates for great mational anniversaries. By reference to Tom Watson's blography

WHEAT AGAIN ADVANCES

HAS HELD FOR A WEEK.

Coarse Cereal Also Strong-Oats Ac tive and Higher-Provisions Are in a Much Stronger Position.

CHICAGO, Feb. 20.-Influential local speculators were active supporters of the wheat market to-day, and the close was firm, May %@14c higher. Corn was comparatively quiet. The market withstood considerable heifers, \$2.50@4.35; canners, \$1.85@2.50; bulls slow quiet. The market withstood consideration at \$2.50@4.25; calves, \$4@6.35; Texas fed steers, selling pressure and closed \4@\%c improved. Oats at the close were 1/8c better and provisions 5c to 10@124c up. There will be no session of the Board of Trade on Friday, Washington's birthday.

Indifference of the Liverpool market gave

rise to expectations of lower prices for wheat here, but the tap of the gong found offerings valued scmewhat higher than they were at the close yesterday. May opened unchanged to 4c higher, at 75%c to 75%c. The first batch of buying orders being satisfied, the market became quiet but firm on moderate Northwest receipts and the fact that large areas of the wheat belt are without snow protection. There was even a bit of gossip concerning Hessian fly in Nebraska, but it is rather early for that insect to be much of a factor in fixing the price of wheat.. The bears derived some comfort from an unofficial estimate giving south Australia an exportable surplus of 9,937,000 bushels. Later buying by leading operators, seaboard advices of a better export situation and covering by shorts who were made nervous by the strong character of the buying caused a sharp bulge to 76%c. A profit-taking movement greeted the advance, but the close was strong. May Glic over yesterday, at 75% 976c. Exporters reported seventy-two loads taken for foreign shipment, while seaboard clearances in wheat and flour were equal to 432,000 bushels. Primary receipts aggregated 463,000 bushels, compared with 539,000 the corresponding day last year. Minneap-olis and Duluth reported 243 cars, against 637 last week and 504 a year ago. Fresh arrivals here were thirty-eight cars, one of which graded contract.

Corn relinquished the leadership Change after the first hour's trade, having held it undisputed for a week. May opened 4c higher, at 40\\@40\\chic, under the influ-ence of light receipts. The crowd bought freely and May, having dropped to 40%c, reacted to 40%c. The market became quiet on this advance and remained in that condition to the end. The closing wheat strength helped to sustain prices during the latter half of the session. The close was 40%c higher, at 40%c. Receipts were 276 cars, two of contract grade. Oats were fairly active within a narrow range. The wheat and corn strength were influential, for while general conditions affecting supply and demand were unchanged

there was good buying for the local account. May sold between 25%@25%c and 25%c and closed %c higher, at 25%c. Recelpts were 170 cars. The undertone of the provision market was strong, although business generally was quiet. Hog receipts were less than had been expected, and this, combined with a good cash demand and the strength of the grain markets, resulted in an advance. which was firmly held. May pork sold be-tween \$14.07% and \$14.15 and closed 10@12%

higher, at \$14.10@14.12½; May lard between \$7.47½ and \$7.52½@7.55, closing 7½@10c up. at \$7.52½@7.55, and May ribs between \$7.07½ and \$7.10, with the close 5c improved, at Estimated receipts to-morrow-Wheat, 45 cars; corn, 225 cars; oats, 185 cars; hogs,
